Holy Family PS Data Protection Policy

Introduction

Holy Family Primary School recognises and accepts its responsibility as set out in the Data Protection Act 1998 and sub-legislation contained therein. The School, as a Data Controller, will take all reasonable steps to meet this responsibility and to promote good practice in the handling and use of personal information. In particular the School will comply with the Data Protection Principles set out in the 1998 Act.

This policy statement applies to all School governors and employees, and individuals about whom the School processes personal information, as well as other partners and companies with which the School undertakes its business.

Scope

The School needs to collect and use certain types of personal information about people with whom it deals in order to operate. These include current, past and prospective employees, pupils, suppliers, clients, and others with whom it communicates. In addition, it may be required by law to collect and use certain types of information to comply with the requirements of government departments. This personal information must be dealt with properly however it is collected, recorded and used - whether on paper, in a computer, or recorded on other material - and there are safeguards to ensure this in the Data Protection Act 1998.

We regard the lawful and correct treatment of personal information by the School as very important in order to secure the successful carrying out of operations and the delivery of our services, and to maintaining confidence with those whom we deal. The School wishes to ensure that it treats personal information lawfully, correctly and in compliance with the 1998 Act. It should be noted that the data (in

emails or other systems) does not belong to the user but to the school. The User can only use the data with the permission of the Principal (or other approved person) and only for the purposes for which they receive permission. Therefore a User could be personally liable for breaching the Data Protection Act 1998, if personal information was disclosed because of their unauthorised actions.

To this end we fully endorse the obligations of the Act and adhere to the Principles of data protection, as enumerated in the 1998 Act.

Main Provisions of the 1998 Legislation

(a) Ensuring Data Controllers notify their processing of personal data with the Information Commissioners Office. The School must supply certain information to the Commissioner who maintains a public register of the types of information organisations process, where it gets it from and what it does with it.

(b) Observing the eight Data Protection Principles (more detail below).

(c) Allowing the data subject to exercise his/her rights and have right of access to their personal information, what is held, how it is processed, to whom it is disclosed and to be told of the logic behind automated decisions. Such access requests must be complied within 40 days and the maximum chargeable fee is £10.
